WELCOME BOOKLET

ÉCOLE NORMALE SUPÉRIEURE DE LYON

international students
We are delighted that you have chosen to join us at ENS de Lyon. Every new academic year is an important moment for our École, both for those coming back after the summer break and for those who are starting out on “their first year” at the École. There is no doubt that the 2020 – 2021 academic year will be even more extraordinary. One thing for sure is that we are all looking forward to welcoming you at ENS de Lyon and I would like to wish you all the best for this new year, however unusual it may be.

At the time of writing, the exact conditions of the start of the school year and the first semester of teaching have not been decided upon. It is likely that some of the various on-boarding and group information meetings, and even some teaching activities, will not be able to take place in person. Even on campus, we will probably still have to respect social distancing and safety measures. Our teaching teams as well as our administrative services will do everything possible to welcome you to ENS de Lyon and make you feel at home as quickly as possible, so that you can study, teach, work, and live here, in the best conditions. I hope that by meeting new people and making new discoveries on campus, you will grow to appreciate and love the unique spirit of ENS de Lyon and will share our passion for knowledge as well as our culture of curiosity and excellence.

ENS de Lyon is the heritage of Écoles de Fontenay and Saint-Cloud, founded at the end of the 19th century, at the time of the Jules Ferry laws which established free, secular and compulsory education in France. Initially, the School in Lyon was dedicated to the exact and experimental sciences and in 2017, ENS de Lyon celebrated its 30th anniversary in our city.

In the year 2000, the humanities and social sciences made their first appearance on the Descartes site, and we will be celebrating this event this year. Bringing together the sciences and humanities in 2010, ENS de Lyon also played a significant role in the development of the university of Lyon Saint-Étienne. Since 2011, we have added the French Institute of Education to our structures, giving us unique expertise in the teaching profession, notably in higher education.

Today, ENS de Lyon is ranked amongst the top 5 French Higher Education facilities* and research centers, as well as being classified as one of the 10 best small universities in the world**. We are proud of this recognition that mirrors our vision of creating an international society of knowledge.

You will soon discover that our campus is also international, with no fewer than 70 nationalities represented.

To get to know our École, you will need a helping hand and a few guidelines to find your feet on campus and understand how the École works, especially if part of the academic year is taught remotely.

We have therefore written this guide to give you a comprehensive manual full of useful contacts and information.

We are happy to welcome you on board at ENS de Lyon.

All the best for the new academic year!

Jean-François Pinton

ENS DE LYON, STUDY FOR RESEARCH

ENS de Lyon is an elite French public institution that trains professors, researchers, senior civil servants as well as business and political leaders. Students choose their courses and split their time between training and research in Sciences and Humanities. Built on the tradition of ENS de Fontenay and Saint-Cloud, founded in 1880, ENS de Lyon also focuses on educational research. It is a symbol of French republican meritocracy and it remains committed today to disseminating knowledge to the widest audience and to promoting equal opportunity.

ENS de Lyon is part of Université de Lyon and supports quality research that has earned it a Fields medal (Cédric VILLANI, 2010) and many CNRS medals. It encourages interdisciplinary studies to foster a better understanding of complex contemporary issues.
THE DAI - INTERNATIONAL AFFAIRS DIVISION

LYON, AN IDEAL CITY FOR STUDENTS

Congratulations! You chose Lyon, France’s second biggest city in terms of student population, with 130,000 students including 15,000 international students. The city as a whole has an ideal size and energy; big but not overwhelming, dynamic yet relaxed, cosmopolitan and affordable. It’s also ideally located – less than two hours by train from Paris, Marseille, Geneva and Europe’s finest ski slopes.

Lyon is widely praised for its enviable quality of life, mind-blowing gastronomy and UNESCO world heritage architecture. The city boasts a rich history and buzzing cultural life. It’s renowned for its spectacular Fête des Lumières, atmospheric concerts during the Nuits de Fourvière, ravishes movie buffs during the Lumière Film Festival and hosts the world-known Contemporary Art Biennial and Dance Biennial.

In 2018, the magazine L’Étudiant qualified Lyon as the best French city for students. Also, in the QS World University
Ranking, Lyon is one of the best cities in the world for international students (2nd in France and 42nd in the world). 

Come and see for yourself!

GENDER EQUALITY

THE GENDER EQUALITY CHARTER

A Gender Equality Charter was signed in 2013 by the Ministries of Women’s Rights and Higher Education, Research and Innovation. Within this framework, ENS de Lyon has mobilized its resources, committing to policies of diversity in the workplace and professional equality with the aim of transmitting a true culture of equality to fight against discrimination. ENS de Lyon has commissioned two gender advisors: Christine DETREZ, a sociologist, and Vivien VERGÈS, a legal advisor. Their goal is to work on a daily basis to spread a culture of equality, prepare students to develop professionally, update how equality is measured and commit to greater diversity in certain sectors. It also aims at ensuring a general climate of respect.

EQUALITY COMMISSION

In 2017, ENS de Lyon established an Equality Commission to:
- lead the setting-up of an information campaign on ENS de Lyon’s policy and the rules in force, for all genders at key moments: the new academic year, welcoming new students, etc.;
- set up, on each site, a dedicated mailbox, so that men and women can alert others, anonymously, about situations encountered;
- develop the procedure to be followed in case of sexual harassment, in compliance with applicable regulations. A counseling unit is available for anyone who is a victim or a witness of sexual or gender violence;
- investigate gender and sexual violence issues through a specifically dedicated committee.

AWARENESS AND COMMUNICATION CAMPAIGN

Initially in 2017, and then in 2018, ENS de Lyon set up a campaign against gender and sexual violence. Each campaign was communicated on all of ENS de Lyon’s sites, downloadable on the intranet of ENS de Lyon and available at the Communication department.

TRAINING ACTIONS

The members of the Equality Commission and the Medical Service received training on psycho-social and legal aspects of sexual harassment. ENS de Lyon incorporated this training as part of its training plan, including student associations, administrative services, service managers, departments and research structures.

MEASURES TO PROMOTE EQUAL ACCESS TO DIFFERENT AREAS AND CAREERS

For the past three years, ENS de Lyon has actively supported the operation “La Science, un métier de femmes”, in partnership with the Aslan Labex and high schools to combat gender stereotypes in girls’ career choices. ENS de Lyon has many female teachers-researchers working in associations that promote access to scientific jobs for girls.

In its recruitment and career management policy, ENS de Lyon is progressively working towards gender equality at different levels of the career of a teacher-researcher.

You can consult all the information on the ENS de Lyon French website: “L’École/Nous connaître/Nos engagements/Égalité femmes-hommes”.

You will also find the text of the President’s commitment to combat sexual and gender-based violence, two CLASCHES documents: the “Vade-mecum à l’usage des établissements” and the “Guide pratique pour s’informer et se défendre”, as well as a practical guide for public communication with no gender stereotyping.

GET YOUR HEALTH INSURANCE

HEALTHCARE SYSTEM

In France, international students are covered by the French social security system, often referred to as “la sécu”.

Social security includes health insurance, which reimburses part of your medical expenses. You are responsible for paying the rest, unless you have taken out complementary health insurance, known in French as a “mutuelle”.

If you are from Quebec, you do not need to sign up for student social security. However, you must present form SE401Q106 to the Primary Health Insurance Fund (CPAM), which will give you a document to present when receiving healthcare services. Your medical expenses will be reimbursed by the CPAM.

**CULTURAL FACILITIES**

At ENS de Lyon, there are cultural activities for everyone (open to all staff and students as well as the general public) created by student associations, training departments and research laboratories.

All the arts are present throughout the campus, with numerous facilities, associations, staff and external partners to promote artistic events. Some of the different places to produce and discover artistic creations are:

- **the Artemisia Gallery** that mainly hosts art exhibitions. It is equipped with the best equipment to present artwork (lighting, sound, etc.). The Cultural Affairs department programs events and regularly promotes new exhibits;
- **the Kantor Theater** is a theater-school that reflects the specificity of ENS de Lyon by combining research and training. It hosts the activities of the Arts section (master class, dramaturgy workshops, etc.), participates in the dissemination of scientific activities (film screenings, seminars, etc.) and offers a creative space for students (ENScène, CNSMD…). The theater’s program, open to everyone, is established by a commission based on a biannual call for projects (in May and November);
- **two workshops** on the Descartes site for **visual arts and photography**. They are accessible to all students through ENplaStik! which organizes courses and coordinates the use of the film development laboratory;

- **the hall of the Diderot de Lyon Library** is the place for numerous thematic exhibitions and meetings with writers and researchers;

- other spaces such as the **Dutilleux Hall** (D2.008, Descartes site), the **Félix Pécaut forum** (Descartes site), the **Verrière** (open only to the ENS community) in front of the library (Monod site) can also accommodate concerts, exhibitions or other forms of artistic expression.

ENS de Lyon also has a TV studio and a recording studio run by ENS Media.

JEUNES AMBASSADEURS’ PROGRAM

If you are a foreign student and have decided to pursue your studies in Lyon, make the most of your stay by becoming familiar with the rich cultural environment of your host city by meeting major institutional and business leaders thanks to the Jeunes Ambassadeurs’ program.

The program for a Jeune Ambassadeur lasts 6 months (from October to April) during which time the students will form a pair with their “business coach” and attend different events. Also, each student will put together a project linking — economically, culturally, scientifically, etc. — France and their home country. This project will be submitted to the association, and the successful ones will be rewarded.

After benefiting from this program, upon return to their home country, the Jeunes Ambassadeurs will be able to communicate on the expertise of the companies and the relations established with their directors, encourage contacts between members of the Jeunes Ambassadeurs network, and facilitate international partnerships by communication information, finding required correspondents, etc.

For more information about the program, check the link: http://www.jeunes-ambassadeurs.com/
