Firstly, I would like to congratulate you for securing a place at ENS de Lyon, whether as a student, teacher-researcher or as a member of our administrative or technical staff. We are proud that you have chosen to work and study at our School and are happy to welcome you here. Every new school year is a great moment for our School, especially for you who are «starting their first academic year» at ENS de Lyon.

This year, after two years marked by the constraints of the health context, we hope that the start of the academic year will enable us to welcome you on campus as usual. Whatever health measures we still might have to adopt, I hope that this 2022 academic year will open the doors of ENS de Lyon fully to you.

I would like to thank the teaching teams, the administrative departments and all the supervisors who make every effort to ensure that the School gives you the best welcome and that you feel at home as quickly as possible. For most of you, you will study, teach, work or even live here for several years. I hope that the health context will be such that you can discover the campus, the abundant activities of its training departments, and research laboratories, as well as the

services and associations that the School provides. All this is the fruit of a history of which we can all be proud of, which anchors us in the French tradition of the Écoles normales supérieures, puts Lyon on the map and invites us to explore the ever-changing universe of knowledge and its challenges.

Since its creation in 2010, ENS de Lyon has been recognized among the 5 top French higher education and research institutions\*, and among the 15 best world-class research universities on a human scale\*\*. We are proud of this recognition, which corresponds to our vision of a resolutely international knowledge society, in touch with the challenges of contemporary societies.

Before you get to know the School, you will surely need help and guidance to help you find your way around campus and understand how the School works.

This guide is here to provide you with all the information and useful contacts you need.

Welcome to ENS de Lyon!

Jean-François Pinton

## ENS DE LYON, STUDY FOR RESEARCH

ENS de Lyon is an elite French public institution that trains professors, researchers, senior civil servants as well as business and political leaders. Students choose their courses and split their time between training and research in Sciences and Humanities. Built on the tradition of ENS de Fontenay and Saint-Cloud, founded in 1880, ENS de Lyon also focuses on educational research. It is a symbol of French republican meritocracy and it remains committed today to disseminating knowledge to the widest audience and to promoting equal opportunity.

ENS de Lyon is part of Université de Lyon and supports quality research that has earned it a Fields medal (Cédric VILLANI, 2010) and many CNRS medals. It encourages interdisciplinary studies to foster a better understanding of complex contemporary issues.

## LYON, AN IDEAL CITY FOR STUDENTS

Congratulations! You chose Lyon, France's second biggest city in terms of student population, with 130,000 students including 15,000 international students. The city as a whole has an ideal size and energy; big but not overwhelming, dynamic yet relaxed, cosmopolitan and affordable. It's also ideally located – less than two hours by train from Paris, Marseille, Geneva and Europe's finest ski slopes.

Lyon is widely praised for its enviable quality of life, mind-blowing gastronomy and UNESCO world heritage architecture. The city boasts a rich history and buzzing cultural life. It's renowned for its spectacular Fête des Lumières, atmospheric concerts during the Nuits de Fourvière, ravishes movie buffs during the Lumière Film Festival and hosts the world-known Contemporary Art Biennial and Dance Biennial.

In 2020 and 2021, the magazine L'Étudiant qualified Lyon as the 2<sup>nd</sup> top French city for students. Also, in the QS World University Ranking Lyon is one of the best cities in the world for international students (2<sup>nd</sup> in France and 48<sup>th</sup> in the world).

*Come and see for yourself!*

## EQUALITY AND NON-DISCRIMINATION

### PREVENTION OF GENDER-BASED AND SEXUAL VIOLENCE

#### REPORTING INCIDENTS AND HELPLINE

For acts that may amount to gender or sexual discrimination, harassment or violence, a special procedure has been set up at ENS de Lyon. This procedure does not require you to have filed a formal legal complaint. It is conducted completely independently of any other legal action taken at a criminal level and is based on 4 principles:

- distinct stages involving key players who are independent from each other.
- a counselling team to listen actively to the person who has reported the case in a caring, objective and unprejudiced manner
- action carried out in agreement with the person who reported the case.
- procedures subject to confidentiality by the various stakeholders involved.

If you are a victim or witness of gender-based or sexual violence or any form of discrimination and harassment, you are invited to report it using:

- a dedicated email address: [signalement.violences.discriminations@ens-lyon.fr](mailto:signalement.violences.discriminations@ens-lyon.fr)
- an anonymous form (in French and English) available on the School's website, under the headings «L'École ENS de Lyon > Our commitments > Fight against discrimination and violence».

The Equality advisors and the Equality officer are the only ones with access to this report. They will respond within a week to fifteen days maximum (except during school holidays or when the School's offices are closed).

If the person who filed the report wishes to continue the process, an appointment will be set up with two helpline advisors including a member of the Equality Team (Equality Team Officer and / or Equality Officer) and a member of the Medical Health Service (doctor or nurse). This information is then given to the Action Unit, which meets weekly and, after studying the situation, draws up recommendations and forwards them to the Principal's Office. In agreement with the person who reported the incident, these measures are initiated after a decision by the Governing Board.

### THE EQUALITY PLAN

The Equality Plan of ENS de Lyon establishes the strategy and the action plan applicable in the establishment. The system to combat gender-based and sexual violence, harassment and discrimination is part of the Equality Plan.

For 5 years, ENS de Lyon has been actively supporting the operation «Science, a profession for women» conducted by Aslan labex in partnership with the association promoting women working in science known as “Femmes & Sciences”. This event will be taking place on International Women’s Day, in high schools, to combat gender stereotypes in girls’ future career choices. The School has many teacher-researchers involved in associations that promote girls’ access to scientific fields. In its recruitment and career management policy, ENS de Lyon is ensuring the gradual re-establishment of gender equality at the various levels of teacher-researchers’ careers.

## CYBER SECURITY

Good practices to follow to back up your email account and your data.

Strong authentication: to be activated to prevent someone from stealing your password. You will be able to secure your connections by using, in addition to your password, a temporary code. Discover all the steps on: <https://intranet.ens-lyon.fr/documentation/authentication-forte>

Phishing: This increasingly common practice involves stealing your password via dedicated websites or bulk mailings to @ens-lyon.fr. Sometimes it's very well done. For each email, remember to check if: the name of the sender is the usual one, the shipping address is consistent, the subject is not too attractive or alarmist, the visuals are of good quality, that the text does not contain many mistakes, and that the information requested is not confidential, or that the message is not attractive or worrying. If you notice any of these elements: put your email in the trash immediately without opening it.

Email – attachments: Attachments may contain viruses. Do not open an attachment from an unknown sender or an attachment associated with an inconsistent message. Do not click on a given link in an attachment of this type.

Backup: Store your data in a backed-up space. Preferably on a network space (ensldfs, ged ...).

Password: do not reuse your ENS de Lyon password on another site.

**ASSET**

ASSET is the student association for international students. The students take part to our Welcome Week and help our international students in their first steps at ENS de Lyon. They can assist you for administrative formalities for example. ASSET also proposes different events all year long.

**THE RISKS OF ALCOHOL**

Be aware of the dangers of alcohol. Whether partying or relaxing in the evening, alcohol consumption increases the risk of illness in adulthood and high-level alcohol consumption can be a gateway to later dependence. The short-term risks of alcohol abuse are also significant: lack of concentration and energy, poor quality sleep, loss of consciousness, violence either as a victim and/or perpetrator, non-consensual sex or road accidents; alcohol is responsible for 25% of deaths among 15–34-year-olds and it is the second leading cause of preventable death, just after tobacco.

If you have any questions or concerns about your alcohol consumption, take an appointment with the student medical service.

**SPORTS**

The sport facilities of ENS de Lyon are available to members 7 days a week. ENS de Lyon has two gyms, one of which is equipped with a climbing wall (100m<sup>2</sup> with a 10m section of overhang), a tennis court, 2 weight rooms as well as a dance room. Equipment is available free of charge (badminton and tennis rackets, balls...).

**REGISTRATION**

Registration to the sport activities will be valid after the payment of the fees and a medical certificate.

- sport activities schedule is available online  
<http://www.ens-lyon.fr/campus/sport/activites-sportives>

**SOLIDARITY FUND  
FOR STUDENT INITIATIVES (FSDIE)**

A financial tool for solidarity and cultural events, the FSDIE, to which the Alumni Association contributes, provides two types of assistance: social assistance to help students in a difficult situation; support collective projects of association or student groups to provide cultural events on campus, including sports, environmental or humanitarian initiatives for other students at ENS de Lyon or for the larger university community.

If you wish to apply, you need to make an appointment to receive an application form which once completed needs to be handed in at the Student Life and Alumni department.

**ALUMNI OFFICE**

“Alumni” comes from Latin which literally means “pupil”. The main activity of the Alumni Office is to identify, organize and connect the Alumni network from the Fontenay, Saint-Cloud and Lyon sites. The Alumni Office works in partnership with the Alumni Association (<http://lyon-normalesup.org>).

Its main activities are:

- the management of the Alumni ENS de Lyon site,
- the development of a professional network,
- the organization of Careers fair (in November): round table discussions for businesses.

By developing the Alumni network, ENS de Lyon fulfills its educational goal: providing expertise and skill sets, education, career development...

Former students are the “memory” of the institution, the network helps to sustain its spirit while opening it up to others.

## CULTURAL FACILITIES

At ENS de Lyon, there are cultural activities for everyone (open to all staff and students as well as the general public) created by student associations, training departments and research laboratories.

All the arts are present throughout the campus, with numerous facilities, associations, staff and external partners to promote artistic events. Some of the different places to produce and discover artistic creations are:

- **the Artemisia Gallery** that mainly hosts art exhibitions. It is equipped with the best equipment to present artwork (lighting, sound, etc.);
- **the Kantor Theater** is a theater-school that reflects the specificity of ENS de Lyon by combining research and training. It hosts the activities of the Arts section (master class, dramaturgy workshops, etc.), participates in the dissemination of scientific activities (film screenings, seminars, etc.) and offers a creative space for students (ENScène, CNSMD...). The theater's program, open to everyone, is established by a commission based on a biannual call for projects (in May and November);
- **two workshops** on the Descartes site for **visual arts and photography**. They are accessible to all students through ENplaStik! which organizes courses and coordinates the use of the film development laboratory;
- **the hall of the Diderot de Lyon Library** is the place for numerous thematic exhibitions and meetings with writers and researchers;
- other spaces such as the **Dutilleux Hall** (D2.008, Descartes site), the **Félix Pécaut forum** (Descartes site), the **Verrière** (open only to the ENS community) in front of the library (Monod site) can also accommodate concerts, exhibitions or other forms of artistic expression.

ENS de Lyon also has a TV studio and a recording studio run by ENS Media.

## JEUNES AMBASSADEURS' PROGRAM

If you are a foreign student and have decided to pursue your studies in Lyon, make the most of your stay by becoming familiar with the rich cultural environment of your host city by meeting major institutional and business leaders thanks to the Jeunes Ambassadeurs' program. The program for a Jeune Ambassadeur lasts 6 months (from October to April) during which time the students will form a pair with their "business coach" and attend different events. Also, each student will put together a project linking – eco - nomically, culturally, scientifically, etc. – France and their home country. This project will be submitted to the association, and the successful ones will be rewarded. After benefiting from this program, upon return to their home country, the Jeunes Ambassadeurs will be able to communicate on the expertise of the companies and the relations established with their directors, encourage contacts between members of the Jeunes Ambassadeurs network, and facilitate international partnerships by communication information, finding required correspondents, etc.

- **For more information about the program, check the link: <http://www.jeunes-ambassadeurs.com/>**
