You have chosen to come to the École normale supérieure de Lyon and we are happy to welcome you. Each new academic year is a great moment for our School, for those who meet up again after the summer break and even more so for those who are starting their first academic year at ENS de Lyon. This year, for the second year in a row, the beginning of the school year may not take place as usual. However, and despite whatever health measures we must adopt, I would like to offer my best wishes for this new school year at ENS de Lyon, however peculiar it may be due to the health crisis, and I wish to extend the warmest welcome to you all.

As I am writing, the teams at ENS de Lyon are preparing the start of the school year based on several scenarios, everything will be ready for face-to-face classes, but it is possible, however, that some of the onboarding and information meetings, or even teaching activities will take place with reduced numbers, or perhaps in hybrid mode, mixing face-to-face classes and distance learning. Everything will be done by the teaching teams and administrative departments so that the School offers you the best welcome and that you feel at home as quickly as possible, to study, teach, work, and even live here in Lyon, in the best conditions. As you meet everyone and discover the School, we hope you will learn to share and love the spirit that drives us, as well as our passion for expertise, curiosity and excel-

lence. I hope that the health context will be such that you can discover the campus, the abundant activities of its training departments, research laboratories, as well as the services and associations that the School provides. All this is the fruit of a history of which we can all be proud of, which anchors us in the French tradition of the Écoles normales supérieures, puts Lyon on the map and invites us to explore the ever-changing universe of knowledge and its challenges.

Today, ENS de Lyon is still recognized among the 5 most successful higher education and research institutions in France*, and among the 10 best research small universities in the world**. We are proud of this recognition, which corresponds to our vision of a resolutely international knowledge-based society, in touch with the challenges of contemporary societies. Our campus is also international, with no fewer than 70 nationalities represented.

Before you get to know the School, you will surely need help and guidance to help you find your way around campus and understand how the School works, and even more so, if part of the school year takes place remotely.

This guide is therefore here to provide you with all the information and useful contacts you need.

Welcome to ENS de Lyon!

Jean-François Pinton
President of ENS de Lyon

ENS de Lyon is an elite French public institution that trains professors, researchers, senior civil servants as well as business and political leaders. It is a symbol of French republican meritocracy and it remains committed today to disseminating knowledge to the widest audience and to promoting equal opportunity.

ENS de Lyon is part of Université de Lyon and supports quality research that has earned it a Fields medal (Cédric Villani, 2010) and many CNRS medals. It encourages interdisciplinary studies to foster a better understanding of complex contemporary issues.

LYON, AN IDEAL CITY FOR STUDENTS

Congratulations! You chose Lyon, France's second biggest city in terms of student population, with 130,000 students including 15,000 international students. The city as a whole has an ideal size and energy; big but not overwhelming, dynamic yet relaxed, cosmopolitan and affordable. It's also ideally located – less than two hours by train from Paris, Marseille, Geneva and Europe's finest ski slopes.

Lyon is widely praised for its enviable quality of life, mind-blowing gastronomy and UNESCO world heritage architecture.

The city boasts a rich history and buzzing cultural life. It's renowned for its spectacular Fête des Lumières, atmospheric concerts during the Nuits de Fourvière, ravishes movie buffs during the Lumière Film Festival and hosts the world-known Contemporary Art Biennial and Dance Biennial.

In 2020, the magazine *L'Étudiant* qualified Lyon as the 2nd top French city for students. Also, in the QS World University Ranking, Lyon is one of the best cities in the world for international students (2nd in France and 50th in the world).

Come and see for yourself!

EQUALITY AND NON-DISCRIMINATION

EQUALITY REFERENCE CONTACT PEOPLE AND EQUALITY OFFICER

An equality charter was signed in 2013 by the Ministries of Women's Rights and Higher Education, Research and Innovation. Equality advisors have been appointed at ENS de Lyon, who are responsible, on a daily basis, of communicating a culture of equality, preparing students to develop in their professional environment, ensuring the prevention of discrimination on the grounds of gender or sexual orientation and ensuring the general climate of respect. The Equality advisors will work very closely with all departments to combat gender-based and sexual violence at the School. An Equality Officer will coordinate all the measures put in place. It is in this context that ENS de Lyon has set up several measures in favor of the diversity of staff and professional equality, striving to develop even further, a culture of equality and fight against discrimination. In 2017, the president of ENS de Lyon signed a pledge for the fight against gender-based and sexual violence (referred to as VSS in French). In 2018, the Ministry of Higher Education, Research and Innovation launched the Stop Gender-Based and Sexual Violence in Higher Education campaign to raise awareness among all communities.

THE EQUALITY PLAN

The Equality Plan* of ENS de Lyon establishes the strategy and the action plan applicable in the establishment. The system to combat gender-based and sexual violence, harassment and discrimination is part of the Equality Plan.

GENDER-BASED AND SEXUAL VIOLENCE: REPORTING AND HELPLINE

If you are a victim or witness of gender-based or sexual violence or any form of discrimination and harassment, you are encouraged to report it.

- **One centralized email address:**
signalement.violences.discriminations@ens-lyon.fr
[An anonymous form can also be used](#)

*Submitted to the governing bodies of ENS de Lyon in June and July 2021.

The Equality Advisor and the Equality Officer are the only persons authorized to read the messages in this specific email box and are legally obliged to respect total confidentiality.

The Counselling Service: the person who reports an incident of gender-based or sexual violence can talk to a team of 2 people, who then draw up a report that is then transmitted to the relevant team dealing with Gender-based and Sexual Violence within the institution.

MANAGEMENT OF INDIVIDUAL SITUATIONS

On the basis of the report from the Counselling Service, an action group will give guidance to the victim and offer him/her all forms of psychological support: including access to professional counselling, medical help and psychologists. It will also suggest different steps of action depending on the situation. This unit can be mobilized on a weekly basis, to provide necessary support to the victims. It is made up of the Equality Officer, the Equality Advisor, representatives from the medical department, the HR Director, the Directorate of Legal Affairs and representatives of staff and students.

According to the recommendations of the action group, the administration of ENS de Lyon takes the necessary measures for the protection of victims and, if necessary, refers the matter to the police and takes the relevant legal action.

Confidentiality is guaranteed and the anonymity of victims can be preserved. In accordance with article 40 of the Code of Criminal Procedure, every public official is obliged to report crimes and offenses which he or she is aware of, when carrying out his or her duties, to the public prosecutor.

TRAINING AND AWARENESS CAMPAIGNS

The prevention commission is responsible for putting forward actions to the entire ENS de Lyon community, to increase the necessary awareness of the risks of sexual and gender-based violence and all forms of harassment and discrimination.

The members of the action group and the prevention commission have received training on the psychosocial and legal aspects of sexual harassment. This aspect is also part of the "Rendez-vous Encadrants" program for group leaders, within the framework of the employer's legal obligations. ENS de Lyon

will integrate the deployment of these training/awareness measures as part of its training plan. Student associations and any person in contact with students in their assignments or functions are also particularly concerned.

A mandatory awareness day, for all newcomers to the School, will be part of the new academic year induction program. Other training and awareness campaigns are carried out throughout the year. The participation of everyone is very important because only the awareness of all communities will create a safe working environment in which everyone can thrive and be successful in their studies.

COMMUNICATION

A massive campaign will take place at the beginning of every new academic year, notably with posters, and then followed by other key communication events to raise awareness among the entire community. If you want to reuse visuals with your students or workplaces, you may contact the ENS de Lyon communication department. The visuals can also be downloaded from the ENS Lyon website.

You can consult all the information on the ENS de Lyon website: in the tabs "About us > Our commitments".

In this section, you will also find the text of the President's pledge to the fight against sexual and gender-based violence, two CLASCHES documents: the Handbook on sexual harassment and the Practical Guide to Information and Self-Defense, as well as a practical guide for public communication without gender stereotypes.

TRANSDENTITY

ENS de Lyon is committed to facilitating the use of the first name used on documents and documents that are used internally in the establishment for transgender people. In this context, if you need to change your first name (with or without a certificate from a Town Hall or a High Court), send an email to referentes.egalite@ens-lyon.fr and changement.prenom@ens-lyon.fr.

MEASURES TO PROMOTE EQUAL ACCESS TO THE VARIOUS PATHWAYS AND CAREERS

For 4 years, ENS de Lyon has been actively supporting the operation "Science, a profession for women" conducted by Aslan labex in partnership with the association promoting women working in science known as "Femmes & Sciences". This event will be taking place on International Women's Day, in high schools, to combat gender stereotypes in girls' future career choices. The School has many teacher-researchers involved in associations that promote girls' access to scientific fields.

In its recruitment and career management policy, ENS de Lyon is ensuring the gradual re-establishment of gender equality at the various levels of teacher-researchers' careers.

DISABILITY POLICY

The School is actively engaged in a policy of recruitment, welcoming and giving support to people with disabilities, through its second multi-annual Disability Scheme.

This policy should help increase the employment rate of the beneficiaries of the employment obligation but even more to keep people with disabilities in employment.

ENS de Lyon also actively supports students with disabilities: they can request a support program for students with disabilities (PAEH), with a view to adapting their study and examination conditions.

The disability assignment organizes awareness campaigns and training, in which all students, teacher-researchers and administrative and technical staff are invited to participate.

SUSTAINABLE DEVELOPMENT

TARGETING SUSTAINABLE DEVELOPMENT

Created in 2020, the Sustainable Development program aims to identify and take stock of the actions and initiatives carried out throughout the School, to better identify needs, contribute to the sharing of information and to support emerging initiatives. Many measures have already been carried out, particularly in the field of renovation/building construction and the management of energy.

Sustainable development is one of the strategic objectives of ENS de Lyon for the next 5 years.

Student associations are also actively involved: especially ENvertS and pollENS. ENS Ecolo acts as a link between students and administration on all issues related to sustainable development.

- avoid paying charges, especially if the currency of your country is not the Euro;
- be able to benefit from the National Health Scheme;

- To make an appointment, go directly to an agency. Bring:
- your passport,
 - your visa,

- a proof of residence,
 - an admission letter established by ENS de Lyon.

- WARNING: do not forget to close your account when leaving France.**

GET YOUR HEALTH INSURANCE

HEALTHCARE SYSTEM

In France, international students are covered by the French social security system, often referred to as “la sécu”. Social security includes health insurance, which reimburses part of your medical expenses. You are responsible for paying the rest, unless you have taken out complementary health insurance, known in French as a “mutuelle”.

HEALTH INSURANCE

You are a non-EU student and you will be studying in France for:

- more than three months: you will need to obtain health insurance coverage (compulsory and free). You need to register at www.etudiant-etranger.ameli.fr whatever your age. In order to register for social security (CPAM), you must make an appointment with the International Mobility Office to prepare your application;
 - less than three months, you must be covered by your home country’s health insurance or by a private insurance with the detailed guarantees translated into French or English.
- European health insurance cardholders cannot sign up for student social security: you must obtain the European Health Insurance Card from your Social Security Office or provide detailed proof of private health insurance coverage (translated into French or English) and valid for the duration of your stay in France.

If you are from Quebec, you do not need to sign up for student social security. However, you must present form SE401Q106 to the Primary Health Insurance Fund (CPAM), which will give you a document to present when receiving healthcare services. Your medical expenses will be reimbursed by the CPAM.

COMPLEMENTARY INSURANCE

For better coverage of your medical expenses, you can take out a complementary insurance. You can choose between different student insurances such as:

- SMERRA: <https://smerra.fr/>
- LMDE: <https://www.lmde.fr/>
- ADH: <https://www.assurances-etudiants.com/>

JEUNES AMBASSADEURS' PROGRAM

If you are a foreign student and have decided to pursue your studies in Lyon, make the most of your stay by becoming familiar with the rich cultural environment of your host city by meeting major institutional and business leaders thanks to the Jeunes Ambassadeurs' program.

The program for a Jeune Ambassadeur lasts 6 months (from October to April) during which time the students will form a pair with their "business coach" and attend different events. Also, each student will put together a project linking – economically, culturally, scientifically, etc. – France and their home country. This project will be submitted to the association, and the successful ones will be rewarded.

After benefiting from this program, upon return to their home country, the Jeunes Ambassadeurs will be able to communicate on the expertise of the companies and the relations established with their directors, encourage contacts between members of the Jeunes Ambassadeurs network, and facilitate international partnerships by communication information, finding required correspondents, etc.

For more information about the program, check the link: <http://www.jeunes-ambassadeurs.com/>
