## Welcome to École normale supérieure de Lyon!

Whether you are a student, a member of the academic community, administrative or technical staff, I would firstly like to congratulate you for joining ENS de Lyon.

Every new academic year is a great moment for our establishment, and even more so for you, this being your first year.. Wherever you are, whatever your status, your field of study, or your position, I hope you will be happy. May you be happy to study or work in a stimulating environment, whose missions are meaningful for everyone, but also beyond the walls of our campus.

You will discover a unique School, which is distinguished by the quality of its training and research, inversely proportional to its size. An ENS is a melting pot which, by inseparably combining training and research, aims to irrigate the world of research and higher education in France and internationally. The value of the students we welcome, the quality of the faculty and scholars who work here, the career pathways of our alumni, would not exist without the ability of our institution to nurture an environment conducive to this demanding and permanent exchange between fields of study, skills, cultures and generations. The commitment of administrative and technical staff is a key factor for the success of our work, as well as relations with national research organizations and partners of the Lyon Saint- Étienne site (the four Universities, as well as the Schools).

My ambition is first and foremost to bring this quality to its highest. I am also convinced that we have a special responsibility as an École normale supérieure, rooted in public service: to bring out the fruits of the knowledge that we create and that we transmit to our students, beyond the premises of the School and the academic world. Our action will be guided by a few key principles: social openness, international development, the link between science and society, innovation and, of course, our contribution to the ideas and solutions that must be found to meet the challenges of the multiple transitions that we must achieve, particularly so in light of the ecological crisis we are currently facing.

During this academic year, I will have the opportunity to discuss the running and the goals of the School with you. I always do so in the spirit of open and respectful communication. I hope that as «new entrants» at ENS de Lyon, you will participate in these discussions because our school project, our missions, our values are our common ground. Become part of what unites us.

I wish you a very happy 2024 academic year!

Emmanuel Trizac  
President

You have in your hands the ENS de Lyon students' welcome booklet which will serve as a guide and help you get to know our School. For all of you who are starting at the School this fall, you are joining an institution that trains through research: representing 70% of student career opportunities after graduating from the School. Thanks to this training through research, you will learn to think about a complex question, to examine it correctly and to solve it by knowing how to manage your time and develop an approach to answer it. You will learn so many skills that will be useful in the field of research but also in professional positions such as teaching, management or careers with high-level responsibility. This training is demanding, it requires curiosity, open-mindedness and capacity for innovation, to understand how you learn, so that you will be able to develop knowledge in turn. Our programs also rely on teaching methods that are unique: workshops, master classes, and tutored projects to multiply the approaches and methods.

Developing knowledge is a major challenge in our contemporary societies marked by multiple climate disasters, as well as environmental, geopolitical, local and global crises. As part of the ENS de Lyon diploma, you will pursue an education that trains you through research, opening your horizons via an experience of international mobility and consolidating your knowledge and skills through multidisciplinary programs, to best meet the challenges of our societies.

Numerous international agreements for mobility, working in the School's laboratories, a research library and individual support by researchers and faculty and scholars are all assets to help you build your individual training pathway through research. For those who join the School for a master's degree, this research requirement is at the heart of our training courses offered with the universities and schools of the Lyon Saint-Etienne site. The CHEL[s], "Collège des hautes études Lyon Sciences", in which ENS de Lyon takes an active role, is also a partner.

For this new school year, the School welcomes the third promotion of the Sciences and Societies multidisciplinary cycle of higher education (CPES), as part of a partnership with the prestigious Lycée du Parc in Lyon. The student life offered by the School with its student residences, associations, junior labs, language center and sports center will enable you to build a strong community of like-minded people. And our wonderful alumni network will help you to keep in touch with this community as it grows!

Many services are at your disposal to accompany you during your training at ENS de Lyon, you will discover them in this booklet and of course, throughout the year. I am so happy to welcome everyone to ENS de Lyon and wish you a great start to the new academic year!

## ENS DE LYON, STUDY FOR RESEARCH

ENS de Lyon is an elite French public institution that trains professors, researchers, senior civil servants as well as business and political leaders. Students choose their courses and split their time between training and research in Sciences and Humanities. Built on the tradition of ENS de Fontenay and Saint-Cloud, founded in 1880, ENS de Lyon also focuses on educational research. It is a symbol of French republican meritocracy and it remains committed today to disseminating knowledge to the widest audience and to promoting equal opportunity.

ENS de Lyon is part of Université de Lyon and supports quality research that has earned it a Fields medal (Cédric VILLANI, 2010) and many CNRS medals. It encourages interdisciplinary studies to foster a better understanding of complex contemporary issues.

## LYON, AN IDEAL CITY FOR STUDENTS

Congratulations! You chose Lyon, France's second biggest city in terms of student population, with 130,000 students including 15,000 international students. The city as a whole has an ideal size and energy; big but not overwhelming, dynamic yet relaxed, cosmopolitan and affordable. It's also ideally located – less than two hours by train from Paris, Marseille, Geneva and Europe's finest ski slopes.

Lyon is widely praised for its enviable quality of life, mind-blowing gastronomy and UNESCO world heritage architecture. The city boasts a rich history and buzzing cultural life. It's renowned for its spectacular Fête des Lumières, atmospheric concerts during the Nuits de Fourvière, ravishes movie buffs during the Lumière Film Festival and hosts the world-known Contemporary Art Biennial and Dance Biennial.

In 2022, the magazine *L'Étudiant* qualified Lyon as the 11<sup>th</sup> top French city for students. Also, in the QS World University Ranking 2023 Lyon is one of the best cities in the world for international students (2<sup>nd</sup> in France and 45<sup>th</sup> in the world).

*Come and see for yourself!*

## EQUALITY AND NON-DISCRIMINATION

### PREVENTION OF GENDER-BASED AND SEXUAL VIOLENCE

#### REPORTING INCIDENTS AND HELPLINE

For acts that may amount to gender or sexual discrimination, harassment or violence, a special procedure has been set up at ENS de Lyon. This procedure does not require you to have filed a formal legal complaint. It is conducted completely independently of any other legal action taken at a criminal level and is based on 4 principles:

- distinct stages involving key players who are independent from each other.
- a counselling team to listen actively to the person who has reported the case in a caring, objective and unprejudiced manner
- action carried out in agreement with the person who reported the case.
- procedures subject to confidentiality by the various stakeholders involved.

If you are a victim or witness of gender-based, LGBTphobia or sexual violence or any form of discrimination or harassment, you are invited to report it using:

- a dedicated email address: [signalement.violences.discriminations@ens-lyon.fr](mailto:signalement.violences.discriminations@ens-lyon.fr)
- an anonymous form (in French and English) available on the School's website, under the headings "About us > Our commitments > Fight against discrimination and violence".

The Equality advisors, the Equality and non-discrimination officer and the occupational psychologist are the only ones with access to this report. They will respond within a week to fifteen days maximum (except during school holidays or when the School's offices are closed).

If the person who filed the report wishes to continue the process, an appointment will be set up with two helpline advisors including a member of the Equality Team (Equality Team Officer and / or Equality Officer) or the occupational psychologist or, possibly, a member of the Student healthcare (doctor or nurse). In agreement with the person being listened to, this information is then given to the Action Unit, which meets every fortnight, and, after studying the situation, draws up recommendations and forwards them to the Principal's Office. In agreement with the person who reported the incident, these measures are initiated after a decision by the Governing Board.

## THE EQUALITY PLAN

Committed to gender diversity and professional equality, since 2013, ENS de Lyon has formalized its commitments as part of an Action Plan for professional equality between women and men that was presented to staff representatives at the technical committee meeting of June 29, 2021, and validated by the Board of Directors, July 9, 2021. The action plan on professional equality 2021-2023 is divided into 5 objectives:

1. Assessing, preventing and addressing pay and career gaps
2. Ensuring equal access for women and men to occupations and professional responsibilities
3. Work-life balance
4. Fight against discrimination, harassment and gender-based and sexual violence
5. Governance, steering and monitoring of professional equality policy.

### THE RISKS OF ALCOHOL

Be aware of the dangers of alcohol.

Whether partying or relaxing in the evening, alcohol consumption increases the risk of illness in adulthood and high-level

alcohol consumption can be a gateway to later dependence. The short-term risks of alcohol abuse are also significant: lack of concentration and energy, poor quality sleep, loss of consciousness, violence either as a victim and/or perpetrator, non-consensual sex or road accidents; alcohol is responsible for 25% of deaths among 15–34-year-olds and it is the second leading cause of preventable death, just after tobacco.

If you have any questions or concerns about your alcohol consumption, take an appointment with the student health service.

### ALUMNI OFFICE

"Alumni" comes from Latin which literally means "pupil".

The main activity of the Alumni Office is to identify, organize and connect the Alumni network from the Fontenay, Saint-Cloud and Lyon sites. The Alumni Office works in partnership with the Alumni Association (<http://lyon-normalesup.org>).

Its main activities are:

- the management of the Alumni ENS de Lyon site,
- the development of a professional network,
- the organization of Careers fair (in November): round table discussions for businesses.

By developing the Alumni network, ENS de Lyon fulfills its educational goal: providing expertise and skill sets, education, career development...

Former students are the "memory" of the institution, the network helps to sustain its spirit while opening it up to others.

## CULTURAL FACILITIES

At ENS de Lyon, there are cultural activities for everyone (open to all staff and students as well as the general public) created by student associations, training departments and research laboratories.

All the arts are present throughout the campus, with numerous facilities, associations, staff and external partners to promote artistic events. Some of the different places to produce and discover artistic creations are:

- **the Artemisia Gallery** that mainly hosts art exhibitions. It is equipped with the best equipment to present artwork (lighting, sound, etc.);
- **the Kantor Theater** is a theater-school that reflects the specificity of ENS de Lyon by combining research and training. It hosts the activities of the Arts section (master class, dramaturgy workshops, etc.), participates in the dissemination of scientific activities (film screenings, seminars, etc.) and provides a space for creation and communication for students, within associations (ENScène, Champ Libre) and institutional partnerships with other institutions (CNSMD, Opéra de Lyon...). The theater's program, open to everyone, is established by a commission based on a biannual call for projects (in May and November);
- **two workshops** on the Descartes site for **visual arts and photography**. They are accessible to all students through ENplaStik! which organizes courses and coordinates the use of the film development laboratory;
- **the hall of the Diderot de Lyon Library** and the room **La Parenthese** are the place for numerous thematic exhibitions and meetings with writers and researchers;
- other spaces such as the **Dutilleux Hall** (D2.008, Descartes site), the **Félix Pécaut forum** (Descartes site), the **Verrière** (open only to the ENS community) in front of the library (Monod site) can also accommodate concerts, exhibitions or other forms of artistic expression.

## JEUNES AMBASSADEURS' PROGRAM

If you are a foreign student and have decided to pursue your studies in Lyon, make the most of your stay by becoming familiar with the rich cultural environment of your host city by meeting major institutional and business leaders thanks to the Jeunes Ambassadeurs' program. The program for a Jeune Ambassadeur lasts 6 months (from October to April) during which time the students will form a pair with their "business coach" and attend different events. Also, each student will put together a project linking – eco - nomically, culturally, scientifically, etc. – France and their home country. This project will be submitted to the association, and the successful ones will be rewarded. After benefiting from this program, upon return to their home country, the Jeunes Ambassadeurs will be able to communicate on the expertise of the companies and the relations established with their directors, encourage contacts between members of the Jeunes Ambassadeurs network, and facilitate international partnerships by communication information, finding required correspondents, etc.

- **For more information about the program, check the link: <http://www.jeunes-ambassadeurs.com/>**
