

# IntegratedHealth Campus **SPRING SCHOOL** — 2026 —

**Health in the World:  
Humanities, Social Sciences & Design**

## Department of Humanities and Social Sciences at IITD

The HuSS Department, with its excellent faculty in Economics, Literature, Linguistics, Philosophy, Psychology and Sociology, constitutes a fundamental pedagogical component of IIT Delhi. IITs regard knowledge of Humanities and Social Sciences as a core value. The HuSS department offers a wide range of courses to students of technology, runs a vibrant PhD program, and offers MSc programmes in Cognitive Science and in Economics, as well as the latest MA programme in Culture Society Thought. It also interfaces closely with the Department of Design and the School of Public Policy, IIT Delhi. The HuSS department promotes interdisciplinary and multidisciplinary teaching and research of the kind that is best done when creative researchers from various disciplines are in close locational and intellectual proximity. Research projects and teaching at IIT Delhi address important and emerging issues of health, care, and medical humanities.
